

Erratum: Anisotropy of the magnetothermoelectric power of high- T_c superconducting single crystals in the mixed state: Role of the coherence length [JETP Lett. 55, 127–131 (1992)]

N. V. Zavaritskii, A. V. Samoïlov, and A. A. Yurgens

P. L. Kapitza Institute of Physical Problems, Russian Academy of Sciences, 117334, Moscow

On page 128, the first line of the second paragraph should read: “The dimensions of the samples were about $2 \times 1 \times 0.02$ mm in the case of Bi2212...”

On page 128, alongside Fig. 1(a,b), and on page 130, alongside Fig. 3(a,b), the value of measurement should read “ $\rho(\mu\Omega\text{cm})$.”
