There are errors in Eq. (8): The denominator and numerator of the last fraction should be raised to powers of $2N$.

There is an error in this paper. The first two equations of the system of equations on p. 166 should read

$$\pm 2 \frac{\partial E_1^\pm}{\partial z} = \frac{\alpha E_1^\pm I_s}{|E_0^+|^2 + |E_0^-|^2 + I_s} + \alpha n E_0^\pm,$$
$$\pm 2 \frac{\partial E_0^\pm}{\partial z} = \frac{\alpha E_0^\pm I_s}{|E_0^+|^2 + |E_0^-|^2 + I_s},$$
