In the paper of A. G. Druzhinin, published in Vol. 27, No. 8, the author missed the following misprint: the  $G$  and  $F$  functions in Eq. (3) should read as follows:

$$G = c_{44} \frac{\partial \mathcal{G}_{uu}}{\partial y} + e_{xs} \frac{\partial \mathcal{G}_{\phi u}}{\partial y'}, \quad F = c_{44} \frac{\partial \mathcal{G}_{u\phi}}{\partial y'} + e_{xs} \frac{\partial \mathcal{G}_{\phi\phi}}{\partial y'}.$$

Equation (4), the final equation, should read as follows:

$$v^0 \approx \frac{bvc_{44}}{\pi H} p \frac{1}{c_{GB}t - |y|}.$$
