

Erratum: Superheavy nuclei and pion condensation [JETP Lett. 25, No. 7, 304–306 (5 April 1977)]

V. A. Karnaukhov and S. I. Polikanov

Joint Institute for Nuclear Research

Pis'ma Zh. Eksp. Teor. Fiz. 26, No. 1, 17 (5 July 1977)

PACS numbers: 21.65.+f, 21.10.Dr, 27.90.+b, 99.10.+g

The following corrections should be made on page 304: In the seventh sentence of the article read: ".....at a density n_s larger than n_c (superdense nucleus—SUPP)." In Sec. 3, in the first sentence, read: ".....the possible region of the SUPP stability extends to $A \approx 200\epsilon_s/\epsilon_0$"
