

Erratum: Higgs mechanism and gravitation [JETP Lett. 41, No. 8, 361–362 (25 April 1985)]

V. K. Mal'tsev

Pis'ma Zh. Eksp. Teor. Fiz. **43**, No. 5, 262 (10 March 1986)

In the paper by V. K. Mal'tsev, published in Vol. 41, No. 8, the following error was missed: on p. 442 the author used the wrong sign in determining the background curvature K in terms of the trace $T_{ik}^{(0)}$. In Sec. 4, the following correction should be introduced: If K is determined by the background matter, the symmetry will be broken in the case of a sufficiently rigorous equation of state for this matter.
